Nitty Gritty is all about the ins and outs of community planning. This one-day session will cover the legal framework and tools and techniques associated with effective community planning. Local elected and appointed officials, local and state agency staff, and citizens involved or interested in community planning are invited to learn more about this important local function.

The curriculum includes sessions on the basic legal framework of planning, comprehensive planning, zoning, subdivision control and defensible decisionmaking. Participants also will have extensive opportunities throughout the day to pose real local issues for discussion.
